Radlett Society & Green Belt Assoc. (Charity no. 280877)
s/c - 08-92-99 a/c no. 67202812 ref-solar appeal

An appeal has been submitted to The Planning Inspectorate despite a record number of objections and having been unanimously refused by Hertsmere Planning Committee. The developer's objective will permanently destroy 320 acres of Green Belt Land and install over 100,000 3m/10d high solar panels - over 210 football pitches.

We as local concerned Groups have joined together to fight the appeal on behalf of us all. After presenting our arguments to The Planning Inspectorate we have officially been joined in the proceedings as a Main Party. This means we will take part in the Inquiry independently of Hertsmere Council, present our case against the appeal to The Planning Inspector, call upon expert witnesses and challenge the assault on our Green Belt in the best interests of us all.

We have instructed a professional team of Planning Consultants and leading planning Barristers from Cornerstone Chambers. We need all the community to come together to pursue this action. We are committed to protect our Green Belt and now have to look to you for funding so that we can fight this attack for us all.

This affects all of us and all of our homes and we only have this one chance. Further information available from **Alison Rubinson 07775 631217, Janet Engels 07740 945815** or email stopthesolarplant@gmail.com
